

Town of Holliston Energy Committee

Meeting Minutes from October 7, 2008

For the meeting of the Holliston Energy Committee, held on October 7, 2008, I present the following:

Attendees: John Baudreau, Christopher Smith, Virginia Murphy, Suzanne Newark, John Roth, John Varga, Maura Snow

Minutes of 9/13 were approved as amended.

The meeting was called to order at 7:40 P.M.

No public comment.

Maura will follow up with Amin Jessa to decide upon the best people and time to address the committee.

John Roth attended the First Lego League meeting and spoke with the children about the work they had done on the subject of energy audits. He presented their presentation on the subject. He also challenged them to find ways to reduce global warming. They are invited to present at a future meeting.

The committee reviewed and discussed the Energy Efficiency Opportunity Assessment Report prepared by ICF International for the Holliston High School in September, 2006.

Ginny will research the status of the recommendations put forth in that report.

It was noted that we need a complete inventory of which Town buildings have been audited.

Chris and Suzanne Newark will meet to compile the data from the Town energy bills.

John Roth met Daryl Warner from the Town of Milton Energy Committee. John will ask him if he'll meet with us to discuss lessons learned.

Maura will research contacts she has to see if a banner for Main St would be donated to aid in our community outreach objectives.

John Baudreau and John Varga will meet to schedule a brainstorming session for the Green Subcommittee.

The next meeting will be held on 10/21.

The meeting was adjourned at 9:13.

Respectfully Submitted:

John Baudreau
