

Barn Inspections Begin

State-mandated barn inspections begin in December

A barn inspection looks at:

- animal health
- shelter
- food and water
- livestock census

**If you have livestock you can expect a visit from our
Holliston Animal Inspector, PJ Kilkelly.**

The State requires that all livestock be ear-tagged or have some form of approved identification. Ear-tags are free from the State. Questions regarding livestock identification can be directed to the MA Department of Agricultural Resources, Carry Sexton: 617-626-1797 or carry.shuloc-sexton@state.ma.us.

Questions regarding the barn inspections?
Contact the Holliston Health Department at 508-429-0605
or PJ Kilkelly at 508-328-0210
