Per Guelmi Espinal of the Massachusetts Cultural Council, informed me that were required to allot \$10,434 this year, \$1434 more than the \$9000 we had planned to, because the \$10,434 figure reflects what had to give, based on the town accountant's records, and because we have to give out all the money we have available to give out (we can decide to grant it some to ourselves but we have to have a stated purpose beforehand). So we decided which grants to increase, and by how much. We voted for these new amounts unanimously.
