

2023 COMPLETE STREETS PROJECT CENTRAL STREET AND OTHER LOCATIONS

This project consists of four defined sets of improvements to be made at eight separate locations within the Town. Construction dates May 13, 2024 to July 12, 2024

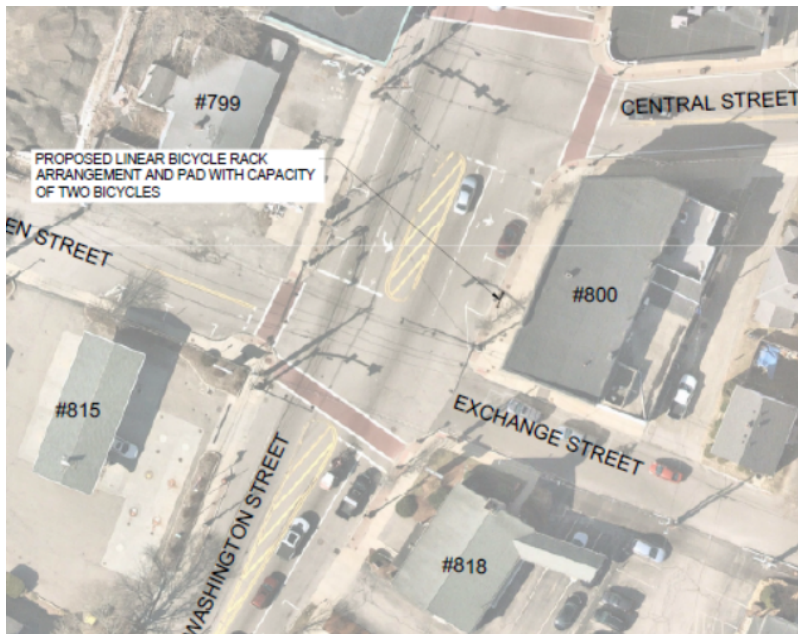

- 1) Construct new sidewalks (raised and flush), ADA-compliant ramps, curbing, a precast drainage structure and restriping the crosswalks along Central Street from Smith Row to Norfolk Street.

- 2) Construct new ADA-compliant ramps at the intersection of Central Street & Norfolk Street and add new sections of sidewalk. Provide and install a new solar powered RRFB sign for the pedestrian crossing at this location.

- 3) One Single Loop Bike Rack at: #800 Washington Street

- 4) Install Solar Powered Radar Speed Feedback Display signs six locations:
a) #465 Washington Street

b) #248 Central Street

- c) #733 Highland Street
- d) #299 Hollis Street

e) #279 & #350 Norfolk Street

In general the work under the Contract includes but may not be limited to: detector panel installation, bituminous sidewalk, raised and flush cement concrete sidewalks, cement concrete wheelchair ramp construction, bituminous curb transitions, granite curbing and transitions, loam and seeding, pavement markings, new traffic signs, clearing and grubbing, removing signage, new speed feedback display signs, new rectangular rapid flashing beacon (RRFB) signs, and other incidentals.
