Residents of Holliston

SUBJECT: Washington Street Corridor, Town Center Signalization Project

As you may know, the Town is about to start work on the downtown signalization project. If you have any questions, concerns or issues we request you direct them to Town Administrator, Jeff Ritter at ritterj@holliston.k12.ma.us.

The work is scheduled to start by early September and stop around November 1, 2017 for the winter season. Work will resume around April 1, 2018 and continue until completion which is estimated to be on or before June 30th at the latest. Pursuant to local regulations work is allowed between the hours of 7:00a.m. and 6:00p.m. Monday through Friday. Work on weekends will only occur with written permission from the Board of Selectmen. Residents will be notified via the Town's Web site prior to any work conducted on weekends. To minimize disruptions to businesses milling and paving operations may occur for a couple of evenings.

If necessary, we can schedule a meeting with the Board of Selectmen, the project manager, and the contractor to address any open issues or questions.

We understand this project will be disruptive and we appreciate your patience during this complicated and long anticipated project. We anticipate weekly project updates to be posted to the front page of the Town's web site under "Project Updates."

If for any reason you have questions as the project gets underway please feel free to contact the Selectmen's Office at 508-429-0608.

Sincerely,

Board of Selectmen

cc. McMahon Associates (Project Manager)
