B. Determinations

Pursuant to the authority of M.G.L. c. 131, § 40 and Article XXXI of the Bylaws of the Town of Holliston, the Conservation Commission considered your Request for Determination of Applicability, with its supporting documentation, and made the following Determinations.

Project Description (if applicable):

The applicant proposes the construction of a 7,200 sqft building with a 120'x60' paved pad off the front and back of the building. The building would be served by a newly proposed septic system underneath the parking pad. Site grading is proposed to extend the earthen berm to the west of the site for noise control, and to extend the perimeter berm up to elevation 160.

The 7.1 acre parcel is currently developed and used for contractor operations including material processing. Wetlands associated with Bogastow Brook (a perennial stream) are located to the west of the site, with a 100-year floodplain along the westerly property line up to elevation 157.
