Reviewed questions related to change of school scheduled times has an impact on the HFT agreement. There might be the potential of impact bargaining if HFT perceives a change of time as a change in working conditions.

SSTS then discussed the various means to communicate to the various communities and engage in productive discussions to facilitate implementation.

SSTS agreed to work on draft of a revised planning document to share with our community and agreed a direct email to key groups. Discussed use of SC newsletter and its reach.

Central office to review draft of transportation changes and seek feedback on bus route and run times for Miller and Placentino.

Acknowledged that many operational considerations as well as funding challenges lie ahead. Anticipate final decision regarding any change will be a SC decision most likely in Spring, 2019.
