**last 14 days refers to the two-week reporting period ending the Saturday prior to the DPH's weekly report*

Looking at our 17 active cases, they are spread over 16 addresses. There is one cluster at a group home, an individual case at a multi-family dwelling, and individual cases at 14 single family homes.

According to an analysis of MAVEN data, the largest increases in cases in the past week were in the 40-49 (6%), 10-19 (5%), 0-9 (4%), and 20-29 (3%) age ranges. The 80-89 and 90+ age ranges saw no new cases this past week.

On Monday, February 22, the Emergency Management Director provided the following *CARES Act* spending breakdown to the Select Board. The chart represents municipal spending, and does not reflect expenses charged to the ESSER or *CARES Act* funds received by the schools. The Planning and Development Expenses do reflect technology purchased by the schools, for which the Select Board had committed municipal *CARES* funding prior to the July 2020 Annual Town Meeting. The amounts indicated are prior to any potential reimbursement for eligible expenses.
