## Metrics (as of November 6) for communities with 10,000-50,000 population

Gray: less than or equal to 10 total cases

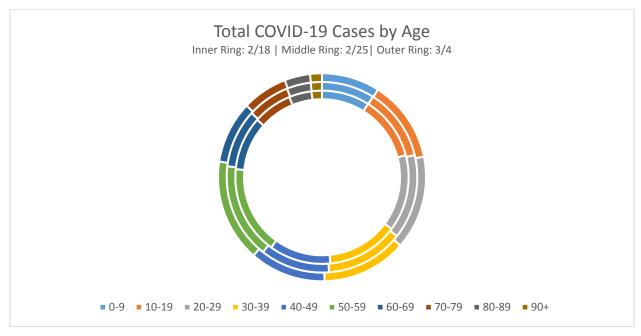

Green: less than 10 cases per 100,000 population AND greater than 10 total cases Yellow: greater than or equal to 10 cases per 100,000 population OR greater than or equal to 5% positivity rate Red: greater than or equal to 10 cases per 100,000 population AND greater than or equal to 5% positivity rate

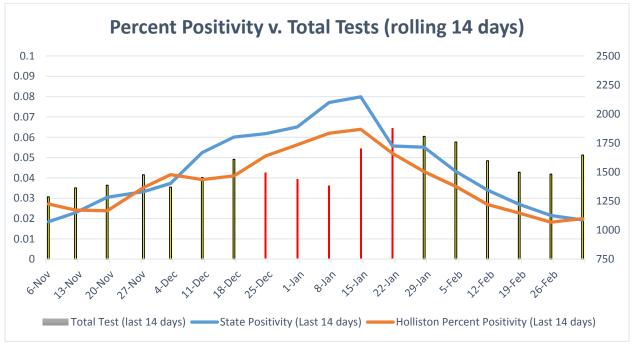

Looking at our 38 active cases, they are spread over 33 addresses. There is one cluster at a group home, two clusters at multi-family dwellings, two clusters at single family homes, three individual cases at multi-family dwellings, two individual cases at multi-family dwellings, and twenty-six individual cases at single family homes.

<sup>\*</sup>last 14 days refers to the two-week reporting period ending the Saturday prior to the DPH's weekly report

According to an analysis of MAVEN data, the largest increases in cases in the past week were in the 10-19 (6%), 20-29 (4%), 0-9 (4%), and 40-49 (3%) age ranges. There were no new cases in the 60-69, 70-79, 80-89 and 90+ age ranges this past week.

On Monday, March 1, the Emergency Management Director provided the following *CARES Act* spending breakdown to the Select Board. The chart represents municipal spending, and does not reflect expenses charged to the ESSER or *CARES Act* funds received by the schools. The Planning and Development Expenses do reflect technology purchased by the schools, for which the Select Board had committed municipal *CARES* funding prior to the July 2020 Annual Town Meeting. The amounts indicated are prior to any potential reimbursement for eligible expenses.
