Looking at our 33 active cases, they are spread over 26 addresses. There are four clusters at single family homes, and twenty-two individual cases at single family homes.

According to an analysis of MAVEN data, the largest increases in cases in the past week were in the 0-9 (7%), 10-19 (6%), and 30-39 (5%) age ranges. There were no new cases in the 70-79, 80-89 and 90+ age ranges this past week.

On Monday, March 8, the Emergency Management Director provided the following *CARES Act* spending breakdown to the Select Board. The chart represents municipal spending, and does not reflect expenses charged to the ESSER or *CARES Act* funds received by the schools. The Planning and Development Expenses do reflect technology purchased by the schools, for which the Select Board had committed municipal *CARES* funding prior to the July 2020 Annual Town Meeting. The amounts indicated are prior to any potential reimbursement for eligible expenses.
