Looking at our 29 active cases, they are spread over 23 addresses. There are four clusters at single family homes, and nineteen individual cases at single family homes.

According to vaccination data by community released by the state, 39.5% of the population is partially vaccinated, and 21.1% of the population is fully vaccinated as of March 30. As of the report 89.8% of the 65-74 age group, and 98.1% of the 75+ age group had received at least 1 shot.

According to an analysis of MAVEN data, the largest increases in cases in the past week were in the 10-19 and 60-69 (3%), and 0-9 (2%), and 20-29, 30-39, and 50-59 (1%) age ranges. There were no new cases in the 40-49, 70-79, 80-89, and 90+ age ranges this past week.

On Monday, March 29, the Emergency Management Director provided the following *CARES Act* spending breakdown to the Select Board. The chart represents municipal spending, and does not reflect expenses charged to the ESSER or *CARES Act* funds received by the schools. The Planning and Development Expenses do reflect technology purchased by the schools, for which the Select Board had committed municipal *CARES* funding prior to the July 2020 Annual Town Meeting. The amounts indicated are prior to any potential reimbursement for eligible expenses.
