Metrics (as of November 6, 2020) for communities with 10,000-50,000 population

Gray: less than or equal to 10 total cases

Green: less than 10 cases per 100,000 population AND greater than 10 total cases

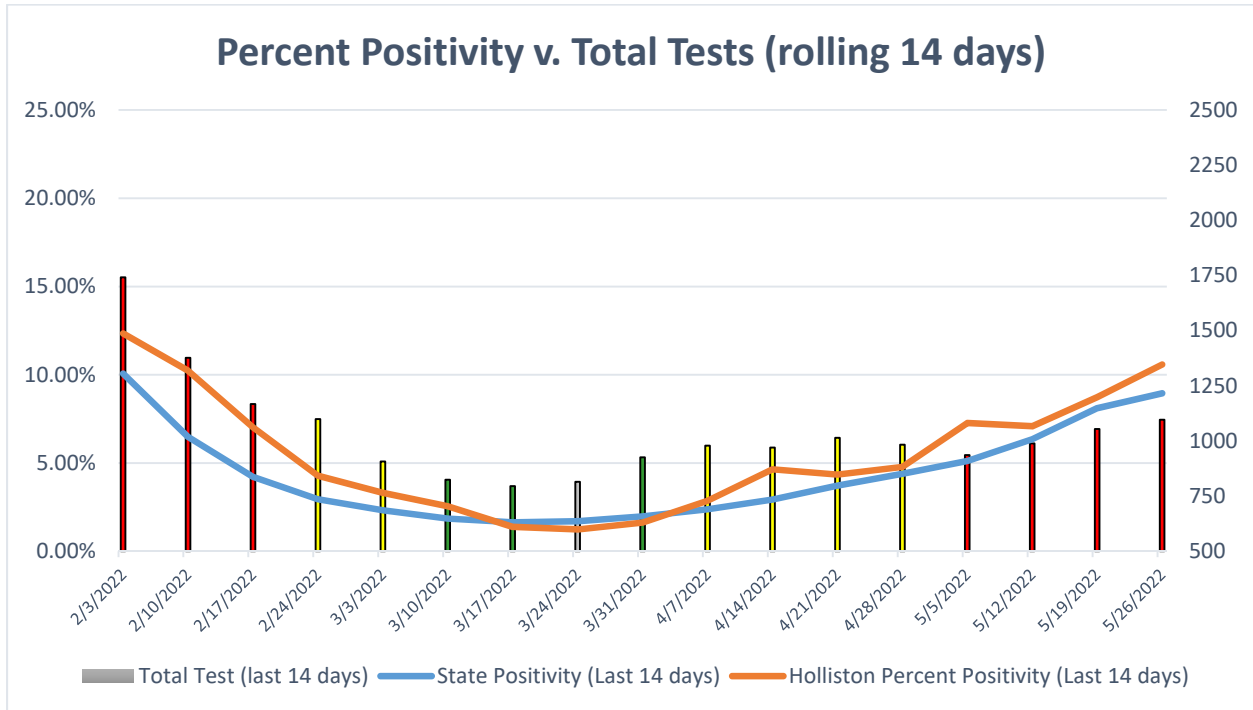

Yellow: greater than or equal to 10 cases per 100,000 population OR greater than or equal to 5% positivity rate

Red: greater than or equal to 10 cases per 100,000 population AND greater than or equal to 5% positivity rate

**last 14 days refers to the two-week reporting period ending the Saturday prior to the DPH's weekly report*

We currently have twenty seven active cases; including twenty five individual cases in single family homes, and one cluster in a single family home.

According to vaccination data by community released by the state, 102% of the population is partially vaccinated, and 93% of the population is fully vaccinated as of May 24. As of the report 115% of the 65-74 age group, and 115% of the 75+ age group had received at least 1 shot. As of this report, data also showed 96% of the 5-11 year old, 119% of the 12-15 year olds, and 127% of the 16-19 year olds having already received at least one shot.

In the last week, the number of cases increased the most in the 0-9 and 60-69 (4%), 10-19 (2%) and 20-29, 30-39, 50-59 and 70-79 (1%) ages.
