

## Weekly COVID-19 Report

When the DPH published the updated town by town information this evening, our community risk designation remained at the **RED** level, based on new cases in the 14 day period ending August 20. According to their weekly reports, our numbers raised from 10 Average Daily Incident Rate per 100,000 on August 18 to 11.4 Average Daily Incident Rate per 100,000 on August 25. Our percent positivity raised from 6.44% last week to 7.23% this week.

### Metrics (as of November 6, 2020) for communities with 10,000-50,000 population

Gray: less than or equal to 10 total cases

Green: less than 10 cases per 100,000 population AND greater than 10 total cases

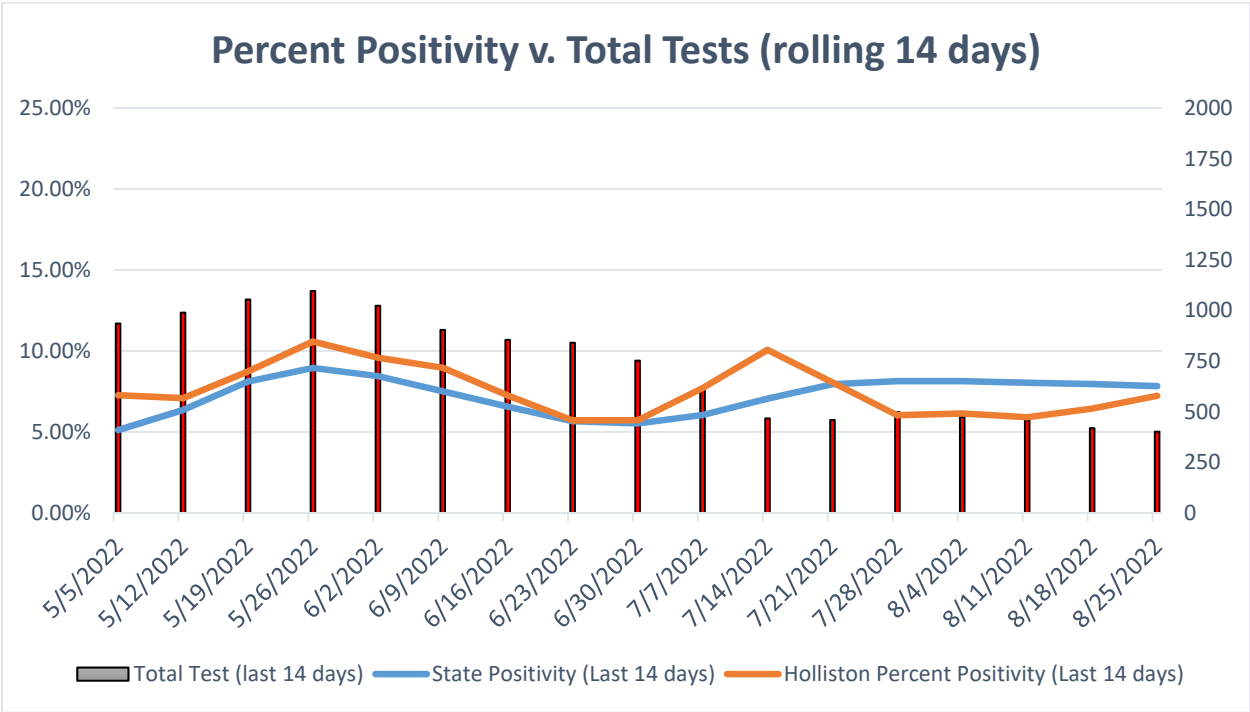

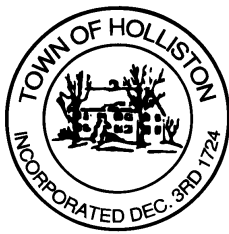

Yellow: greater than or equal to 10 cases per 100,000 population OR greater than or equal to 5% positivity rate

Red: greater than or equal to 10 cases per 100,000 population AND greater than or equal to 5% positivity rate

*\*last 14 days refers to the two-week reporting period ending the Saturday prior to the DPH's weekly report*

We currently have sixteen active cases; with eleven individual cases in single family homes, and two clusters in single family homes.

According to vaccination data by community released by the state, 95% of the population is partially vaccinated, and 86% of the population is fully vaccinated as of August 22. As of the report 107% of the 65-74 age group, and 104% of the 75+ age group had received at least 1 shot. As of this report, data also showed 24% of the 0-4 year olds, 83% of the 5-11 year olds, 102% of the 12-15 year olds, and 113% of the 16-19 year olds having already received at least one shot.

In the last week, the number of cases increased the most in the 70-79 and 80-89 (3%), and 0-9, 50-59 and 60-69 (1%) ages.
