

Monday, August 26<sup>th</sup>: The work to connect all homes to the new water main has been completed with exception of a few services in Exchange Street. On Monday, August 26 through Wednesday, August 28 the remaining water services in Exchange Street will be transferred to the new water main, and a connection will be made to the existing water main at edge of Washington Street. On Wednesday, August 28 thru Friday, August 30 the new water main in School Street and Spring Street will be connected to the existing water main in Washington Street. Depending upon the exact location of active construction zone, those sections of Exchange Street, School Street and Spring Street will be blocked to vehicular traffic. Most other streets in Mudville area will be open to traffic. Please note that plans may change due to unforeseen circumstances.
