

- The work to connect each home to the new water main is continuing. On Monday, August 12, the remaining five homes in Union Street and two homes in lower part of Exchange Street will be connected to the new water main. On Tuesday, August 13, the work will be mostly in Exchange Street between Union Street and Washington Street.

Notices will be delivered to those customers the day before. Depending upon the exact location of active construction zone, those sections of Union Street and Exchange Street will be blocked to vehicular traffic. Most other streets in Mudville area will be open to traffic. Please note that plans may change due to unforeseencircumstances.

- Water Main Replacement Update (6/6/2019): The work to connect each home to the new water main is continuing until all customers in the Project area have a new water service. On Monday August 5, the work will be mostly in Pleasant Street between Mechanic Street and Washington Street. This will complete the new water services in Pleasant Street. The crew will then move to Mechanic Street and or Union Street to connect homes between School Street and Exchange Street. Notices are delivered to those residents the day before. Depending upon the exact location of active construction zone, those sections of Union Street and Mechanic Street will be blocked to vehicular traffic. Most other streets in Mudville area will be open to traffic. Please note that plans may change due to unforeseen circumstances.
