

WASHINGTON STREET CORRIDOR IMPROVEMENTS

PROJECT UPDATE

Week of October 9 - 13, 2017

- **Construction has begun!!!** Installation of temporary construction signage, and work involving installation of conduit within the brick banding area of the existing sidewalks has begun this week.
- Conduit work within the brick banding will require some temporary sidewalk width restrictions, and localized parking restrictions on Washington Street. Access to businesses will be maintained at all times.
- The second bi-weekly construction meeting is scheduled for Tuesday, October 17 between the Town of Holliston, the engineering design consultant (McMahon Associates), the contractor (Lorusso Corporation), and the Town's third party Clerk-of-the-Works (Tetra-Tech) to discuss the ongoing work and construction schedule.
- The contractor is continuing to prepare and submit shop drawings for particular construction items to ensure conformance with the project specifications, prior to order. These are being reviewed by the project design consultant.
